- Potential Employer Strategies
 - Mandates
 - Incentives
 - Prioritization

Emerging questions & concerns on Covid-19 vaccines

- Safety & efficacy
- Rapid development
- Religious concerns
- Impact on masking and other safety strategies
- Impact on Return to Work Policy and Accommodations

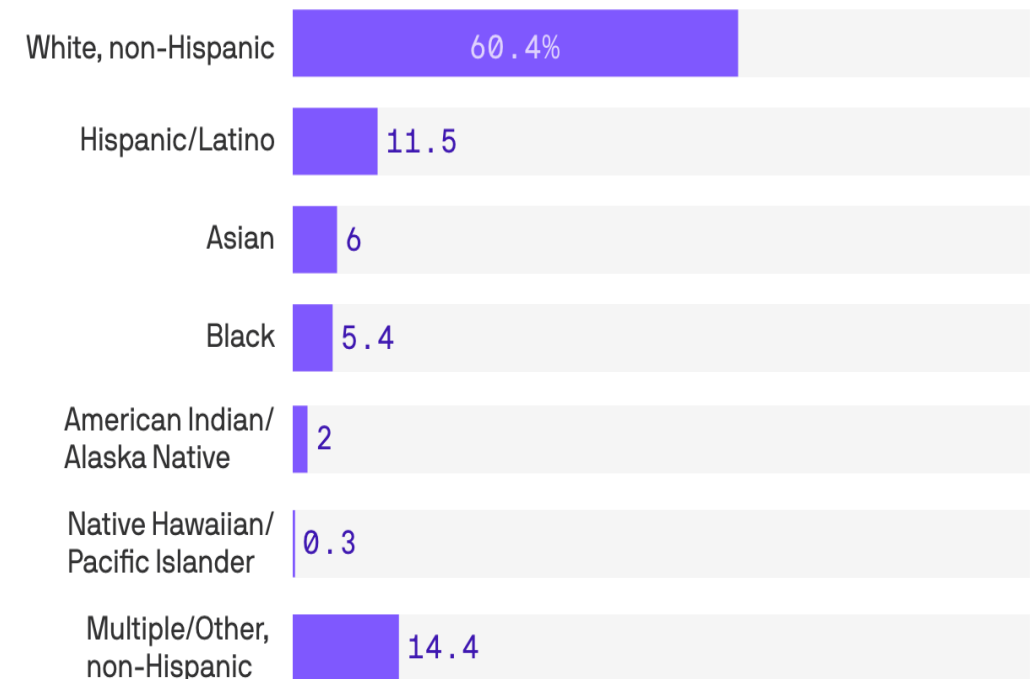

Health Equity - Vaccination Concerns & Disparities

Dec. 14, 2020 to Jan. 14, 2021; 51.9% of vaccine recipients reported

- 1st month of vaccinations mirror the demographics of the two groups eligible for those initial vaccines
 - Health care and long-term care facilities
 - Mostly female, and 40% were non-white.
- Black Americans appear to be under-represented
 - Particularly relative to their share of the health care workforce and long-term care population
 - People checking the "other" box were dramatically over-represented

Race/ethnicity of U.S. COVID-19 vaccine recipients

Dec. 14, 2020 to Jan. 14, 2021; 51.9% of vaccine recipients reported

Vaccine Variation – Emerging Insights

- Pfizer
- Moderna
- Johnson & Johnson
- Astra Zeneca
- Other

A nighttime photograph of the Lincoln Memorial and the Washington Monument in Washington, D.C. The Lincoln Memorial is on the left, illuminated with warm orange lights. The Washington Monument is a tall, thin obelisk in the center background. In the foreground, there is a bridge with arches and a fountain with several vertical jets of water. The entire scene is reflected in the water. A semi-transparent white rectangular box is overlaid in the center, containing text.
